

Harbour Craft® Fiberglass Doors

Naturally beautiful  
without the  
maintenance

If you're looking for the beauty of a wood door without the maintenance, then look no further. Harbour Craft Fiberglass doors mimic the grain, texture and construction of a handcrafted hardwood door. The process starts with the highest quality hardwoods, just like a real wood door. To guarantee the authentic look and feel of real wood, a select piece of Mahogany, Oak, Cherry or Fir is used to make each mould. We offer a vast array of rich and embossed panels.

**A Grains**

Each mould is made with a select piece of Mahogany, Oak, Cherry or Fir to guarantee the authentic look and feel of real wood.

**B Durability**

Enjoy the low maintenance along with unsurpassed durability.

**C Security**

Lock-block is enlarged and reinforced to allow for top-quality door hardware.

**D High Profile**

Available in three distinctive beading options – Traditional, Rustic and Craftsman.

**E Construction**

Featuring true square edge design and wider stiles provides enhanced security, durability and strength.

# Harbour Craft® Fiberglass Doors

## Harbour Craft® Oak Collection

Oak, known for its strength, durability and hardness, is a common choice for today's traditional and modern homes. Each Harbour Craft Oak Fiberglass Door is moulded from a select piece of real Oak hardwood to ensure a premium and authentic look without all the maintenance.

## Harbour Craft® Cherry Collection

Native to North America, this elegant premium hardwood has been a favourite in high-end homes for centuries. Our Harbour Craft Cherry Fiberglass Doors use patented technology and a unique moulding process to mimic the grain of real Cherry wood grain. So, just like the real thing, our Cherry collection delivers the natural luster, beautiful grain and rich glow that Cherry hardwood is best known for.

## Harbour Craft® Mahogany Collection

The world's premier exotic wood, Mahogany has a wood grain that offers a fine texture and uniform interlocking grain, ranging from straight to curly. Mahogany's classic look complements a diverse range of home styles from traditional to contemporary. Just like a real wood door, the Harbour Craft Mahogany Collection starts with the highest quality hardwoods and utilizes a unique moulding process to ensure that each door embodies the same beauty as its inspiration.

## Harbour Craft® Craftsman Fir Collection

Known for being exceptionally strong with a straight grain, Fir is one of the most dominant species in the Northwest. The Fir wood grain combined with the design and construction of the Harbour Craft Craftsman door perfectly complements Mission and Craftsman style architecture. Like the wood of a Douglas Fir, the Harbour Craft Fir Collection is created using a real piece of this distinctive hardwood to ensure a true-to-nature look and feel that can fool even the most discerning eye.
